

Evolution Bioscience is a global consultancy firm, specialising in market intelligence, strategy formulation, technology transfer and commercialisation services, covering the full range of Biotechnology sectors.

We act as trusted advisors to many leading and emerging Biotechnology & Biopharma companies. Evolution's scale, scope, and knowledge enables us to deliver bespoke research and commercialisation solutions tailored to the complex demands of a shifting industry landscape.

## BUSINESS BENEFITS

### MARKET INTELLIGENCE & ANALYTICS

Our bespoke analytics service is dedicated to the provision of real-time, evidence-based global market intelligence.

### GLOBAL VOICE OF STAKEHOLDER STUDIES

Our detailed analysis process is holistic, encompassing not only the end-user, but the needs and perceptions of all key stakeholders.

### COMPETITOR BENCHMARKING

Our benchmarking services are designed to focus on assessing product/service portfolios, market share, competitive strategy & profitability.

### ELITE GLOBAL TALENT PROVISION

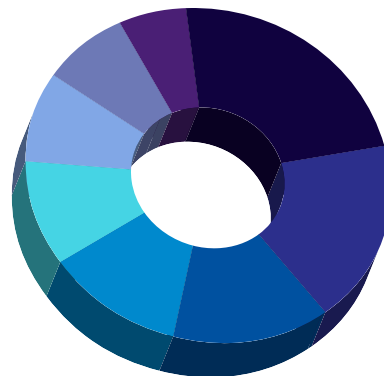

Via our sister company Evolution Executive Search, we offer industry-leading talent solutions using live market intelligence.

## WHY USE EVOLUTION?

- We provide our clients with innovative, actionable solutions
- Our approach is client-centric, transparent and bespoke, catering to customer needs, budgets and timelines
- Evidence-based analysis to provide recommendations based on facts, not conjecture
- Life Sciences expertise with a proven track record
